

Patients' Lives Matter
ATTENTION
PUBLIC HEALTH RISK!

The City of San Jose is allowing marijuana and marijuana products to be distributed that has **NOT** been tested for toxic pesticides and other dangerous contaminants! San Jose is **NOT** making sure nor guaranteeing that marijuana being distributed to people in San Jose is poison free and **SAFE!** There are currently **NO** licensed or authorized growers under the new state law and **NO** mandated testing is being enforced or is occurring! San Jose doesn't care about your personal welfare and your health nor the risk involved when you ingest marijuana that's **NOT** guaranteed safe or tested from uncertified or unlicensed growers! This is a **PUBLIC SAFETY ISSUE** outrage and must be **STOPPED**, please contact your local City Councilmember and Mayor Liccardo and voice your concerns before someone becomes seriously ill or possibly even dies!

THEY SAY A PICTURE IS WORTH A THOUSANDS WORDS...

Safe access for **CHILDREN** at a City of **SAN JOSE** registered cannabis cartel store, is this really what you want? Another example of City oversight!
